

# NATIONAL COMMISSION SUSPENDS WILSON

New Orleans, Jan. 16.—John Wilson, middleweight champion, was suspended until September 1922 by the National Boxing Association at its second annual meeting here today. The suspension also applies to Wilson's manager and is effective in sixteen states, Australia and Canada.

The fighter and his manager were found guilty by the association of "conducting unbecoming a fighter and manager." The charges were presented by L. H. Lightcap, representative of the Ohio state boxing commission and concerned Wilson's bout with Bryan Downey in Ohio last year.

Minnesota, Connecticut and Nebraska boxing officials were elected today to membership in the association.

The question of importing referees from one state to another was discussed and it was learned that fifteen states represented in the association prohibit such practice.

## CHARLEY WHITE GIVEN DECISION OVER DUNDIE

Boston, Jan. 16.—Charley White, Chicago lightweight champion, was given a decision over Johnny Dundie, rated as a junior lightweight champion of the world, in a ten round bout here tonight. White weighed 137 pounds, Dundie 128.

White led in the first three rounds. Dundie came back strong in the fourth and seemed to have a shade the better of him in several of the remaining rounds.

## PENN COURT TEAM TIED WITH TIGERS

Pennsylvania made the best showing in the opening of the Intercollegiate League basketball games last week. Princeton led in the first three rounds, Cornell and Columbia had the same kind of a nip-and-tuck affair. Dartmouth gained a six-point verdict over Columbia while Pennsylvania had a walkover with Yale.

In the Yale-Pennsylvania game it was seen five minutes after the toss-up that the Red and Blue outclassed the New River team. Yale may not be the best Intercollegiate League team but the other four will have to improve 100 per cent to beat Penn. The tie game played again this season. Penn is so far advanced in the present system of play that it will take several seasons

## EIGHT MEETS LISTED FOR PENN. WRESTLING TEAM

The University of Pennsylvania has announced the wrestling schedule for this season with eight meets listed for the varsity matmen and six for the freshmen team. The complete list follows:

January 28, Princeton at Princeton; February 4, West Point at West Point; February 12, Columbia at New York; February 18, University of Virginia at Charlottesville; March 10, University of West Virginia at Morgantown; March 18, Lehigh at Lehigh; March 24, Lehigh at Lehigh; March 25, Intercollegiate championship at Lehigh.

## SIX CLUBS REMAIN IN EASTERN LEAGUE

From present indications the Eastern Basketball League will probably finish the season with six clubs, the players of the Scranton and Philadelphia Clubs being presented to the highest bidder at the league meeting Tuesday night. Or if

there are no bids the players will be released outright.

Reading, Wilkes-Barre, and Coatesville will be given first choice on the men. With the teams more evenly matched the second half the rate should be more interesting.

The minor leagues will have it all themselves in Philadelphia, and with the high-priced stars should go along nice. There is no question that Philadelphia would have a club of any strength, but the postponement of games so often had the fans guessing, and they never did know when a game would be played with the exception of the opening.

It is also hard to pick up enough players of the strength of the Eastern League, as the players in this city are fast for local minors, but not big league games. It takes time to develop men and then the proper coaching is always needed, an idea that is what the Philadelphia Club did not have.

## CHANEY WOULD LIKE BOUT WITH CHAMPION LEONARD

George Chanev and Willie Jackson are the only two fighters who have overcome the chance to life challenge at Benny Leonard. Not until a week ago it was learned that Chanev had accepted any number of going after the 134-pound diamond.

Walter Chanev was in Philadelphia reporting to George Pawling in person that he would be unable to make a fight on show of last Tuesday, he was asked by a newspaperman:

"Would you meet Benny Leonard?"

"I've explained the situation," Chanev said. "I'll fight anybody the best says," and as he uttered those words he turned to Sammy Harris, his manager "Leonard will make 125 pounds for me, then we can have a fight any time we want. I'll meet anybody in the world up to 135 pounds, and that goes! I've flattened a lot of them and I think I can knock a lot of them kicking yet."

## LEGISLATOR FEARED HE WASN'T EARNING SALARY

Boston, Jan. 16.—Representative Guy L. Weymouth, of the 23rd Middlesex district, resigned from the state legislature today because he feared he was not earning his salary.

Weymouth told Speaker Young that his salary as treasurer of the town of Belmont took so much of his time that he was unable to give the house of representatives the attention due it in connection with his legislative salary of \$1,500.

## GOLD BEARING SAND IN STREET IN BUFFALO

Buffalo, N. Y., Jan. 16.—Gold bearing sand has been found in a down town Buffalo street. A report was received today from New York assayers that samples of sand excavated in laying a main in Washington street showed gold \$50 to the ton and silver 26.25 ounces to the ton. It is not readily determinable whether the sand was a pocket or not.

## RANCHER'S LUCKY FIND

Some years ago a French-Canadian rancher was rumbling about a distant part of his land when he noticed a piece of rock which glistened in the sun. Out of curiosity he picked it up and took it home with him. Its weight convinced him that it was mineralized rock and he took it to a specialist, who found it to be almost pure silver. Since then that ranch has yielded between 50,000,000 and 60,000,000 ounces of silver.

## Sun Engine Does Good Work

The most remarkable sun engine built up to date is operated at Mead, near Cairo, in Egypt. It consists of five 205-foot boilers placed on edge and in the focus of five channel-shaped mirrors. Its best run for an hour yielded 1,442 pounds of steam at a pressure of nearly 16 pounds to the square inch—equivalent to 63 horsepower on an acre of land occupied by the plant.

## CHICAGO WHEAT MARKET

Chicago, Jan. 16.—Wheat had a tendency to sag in price today owing more or less to competition from the southern hemisphere and to failure of a brokerage house in New York. The close, however, was steady at the same as Saturday's market to 1-16 lower with May 1-11 3-8 to 1-11 1-2 and July 1-10 1-8. Corn gained a shade to 1-80 and oats 1-8 to 1-8 1-4 and provisions finished unchanged to 2-16 higher.

With reports current of enlarged offerings of the new crop in Australia and Argentina, the wheat market here showed an absence of any aggressive buying at the outset. This condition was soon made more pronounced by word of the New York brokerage failure, although the fact was quickly ascertained that no important amount of grain was involved. A little more confidence was displayed a little more confidence and the market rallied somewhat. Russian relief purchases were helpful as a stimulus at this juncture, and so, too, was an announcement of decrease in the United States visible supply total, notwithstanding that the decrease proved to be less than had been looked for in some quarters. Absence of moisture in the southern states as an additional strengthening factor at the last.

Renewal of export inquiry, together with a visible supply decrease gave firmness to the corn market. Oat prices declined in the absence of any special demand.

Increased shipments of lard helped to lift provision values despite lower quotations on hogs.

## Chicago Grain Market

Wheat	High	Low	Close

## HELD ON SUSPICION OF SHOOTING TWO TROOPERS

Charleston, W. V., Jan. 16.—Four of five fugitives sought by state police in connection with the shooting of two troopers on Cabin Creek yesterday were captured by Constable J. W. Amick, at Seth, in the Coal River district tonight, according to reports reaching state police headquarters here.

Those captured were "Pat" Jeffries and Leo Allison, the two charged with shooting the troopers; Henry "Skinny" Alford and Elmer Smith. Troopers are being searched for A. H. Highland, alleged to have been implicated in the shooting.

The state policeman wounded yesterday on Dry Branch when they attempted to arrest Alford on a capias issued by the Logan county court following their indictment in connection with the march of armed miners from Kanawha county to Logan county last month, were reported to be improving tonight, and hope was held out for their recovery.

## FOUR OF THE ANCONDA MINES HAVE RESUMED

Butte, Mont., Jan. 16.—Four mines of the Anconada Copper Mining Company, resumed work today after being closed for several months because of unfavorable market conditions.

The mines producing have been closed several months because of unfavorable market conditions.

## HELD WOMAN INELIGIBLE TO SERVE AS JUROR

Pittsfield, Mass., Jan. 16.—Mrs. Bertha Cady, of Windsor, the only woman drawn for jury service in Berkshire county today when she appeared ready to serve. Judge George A. Flynn informed Mrs. Cady in open court when her name was called that she was not eligible to serve as a juror under ruling of the supreme court which holds that no woman is eligible to such duty until the legislature has enacted a law making it so for the newly enfranchised sex to do so.

## LEGISLATOR FEARED HE WASN'T EARNING SALARY

Boston, Jan. 16.—Representative Guy L. Weymouth, of the 23rd Middlesex district, resigned from the state legislature today because he feared he was not earning his salary.

Keep Steam Up.  
Folks who steam up, and stay steamed win the confidence of their fellows. There's enough to do in life to keep the average fellow on the go. But unless it makes a special appeal to his ideals it will be little better than drudgery. His challenge must come from the unsealed heights of promising possibilities. He must see the reward of effort in rich returns. Then he will give himself unstinted to the call and by doing so kindle in others the desire to work with him. Besides this they will learn to trust him for the thing he does. So the call is to steam up—Grit.

Literally Stumbled on Riches.  
About a quarter of a century ago two prospectors in the bushland of Western Australia had put up their tent for the night and determined to trek back to Perth next morning, as their quest had proved fruitless. One of them was aroused from sleep by the restlessness of his horse, picked just outside the tent and, going out to see what was the matter, he tripped in the darkness over a boulder, which proved on examination to be almost pure gold. That was the beginning of Coolgardie.

America's First World's Fair.  
The first great "world's fair" in America, the Centennial Exhibition of Arts and Industries at Philadelphia was opened May 10, 1876, with 33 nations represented by exhibitions. President Grant, Emperor Dom Pedro II of Brazil and many other distinguished men were present. The exhibition was open for paid admissions 150 days and the total cash receipts from admissions was \$3,813,725.50.

Proverb Analyzed.  
A proverb hopes nothing, fears nothing that the eyes do not see, the ears do not hear. It is the delectable Thomas of life. "A man of the world is" as Mr. Balfour once said, "a man who does not believe anything good of the world." Well, so is a proverb.—V. H. Friedlander, in Country Life.

Hardly Likely to Occur Again.  
The unique distinction of a former President of the United States witnessing the inauguration of his son was enjoyed by John Adams when John Quincy Adams was sworn in on March 4, 1825. This event is not likely to be repeated in American history.
